Subject: The Results of the 1st QRP SSB Foxhunt (fwd)
Date: Sat, 24 Dec 1994 22:39:30 -0500 (EST)

I'm reposting this to my digest service and Henry NA5KA to let you all know "early" what happened.

Apparently NETCOM has throttled back it's 400 listservers for the holiday. I received a private email from a netcom account, so I know that their regular service is running.
